I believe there was a truck issue yesterday and this may have been it.

Much Appreciated,

Renée

Hi Albi,

Do you have an address? This looks more like hydraulic fluid however I will follow up and get back to you once I get a location?

On the other hand, how would a driver know what is in the cans before he dumps them? I could have the ambassadors go over and educate this block of residents?

Much Appreciated,

Renée C. Renée Shackelford

Hi Renee,

We got this complaint below from one of our constituents from Baldwin hills. Could you check with their supervisor and see what can be done to fix this issue with the dripping of waste liquids?

To: <rachel.brashier@lacity.org>

Ms. Brashier,

My name is Ryan Walls, I'm a resident of Baldwin Hills and was hoping you could help me bring a serious issue to the councilman's attention.

In our neighborhood we have been experiencing negligence from our waste pick up. Every Monday morning we have trash/recycling/compost pick up. Every week these trucks allow waste liquids to pour all over our neighborhood streets. **This happens every week and it must stop.** The smell is horrid and it's incredibly unsanitary.

In a Northeastern Ohio community the bacterial disease Listeria was found present in fluids spilling out of garbage trucks. Listeria has a mortality rate of 20% and is especially threatening to pregnant women, children, and the elderly.

We do not need added health risk in our community during a pandemic.

In a time when we are asked by our city to act responsibly about our health we have to ask our city to do the same and every Monday morning **they're letting us down in Baldwin Hills.**

I've enclosed some photos of what our streets look like on trash pick up days. **This is dangerous liquid waste being spilled on neighborhood streets where families and elderly people walk every day.** I am hoping that Councilman Harris-Dawson can help us fix this problem immediately.

Thank you for your time,

Ryan Walls
